Kirk,

Could you let me know the status about our below request?

Thanks,

Mitch

George and Kirk,

Let me complement.

As discussed with you, we are trying to create the response to Q11, the number of sales(PPO) by month and year using the date of the vehicle delivery to the customer in the TMC's vehicle history database because we should not expect the perfect data provided by CAD.

Based on the VIN list which you gave us, we checked the delivery date of all vehicles listed in the VIN list, but 2,786 vehicles does not have the data of the delivery date. So we would like you to check the delivery date of these vehicles.

Thanks,

Mitch

Morino-san & Kirk-san

Thank you for sending me PPO VIN list.
It included 17113 unique VINs.

I am making the month/year sales part list of all weather floor mat.(Q11)
But I don't have enough information.

I want to categorize VINs by the date warranty coverage commenced(WSD).
But 2786 VINs of 17113 has no date warranty coverage commenced.

So, please tell me the date warranty coverage commenced as for attached file.

Thank you very much for your support and cooperation.

Best regards,

T.Oba
